

PRODUCT INFORMATION

STRIPRITE

Striprite is an expanded metal product made from 30 gauge galvanized G-90 steel. Striprite is used primarily for additional reinforcement in plaster, stucco or masonry applications.

Striprite is available in 4" and 6" widths and rolls are 200' in length.

INSTALLATION:

Installation of Trowel Trades Accessories Ltd. Striprite should be in accordance with accepted industry standards and all applicable building codes.

Trowel Trades Accessories has been making stucco and drywall accessories for over 50 years. Since we began, our goal has been to offer our customers the highest quality products at a competitive price. Our range of wire to metal products for stucco and drywall is produced with the utmost care to ensure that each item we sell meets the needs to our customers. It is this attention to detailed quality and exceptional service that has made Trowel Trades one of the most trusted names in the stucco industry.
