

PRODUCT INFORMATION

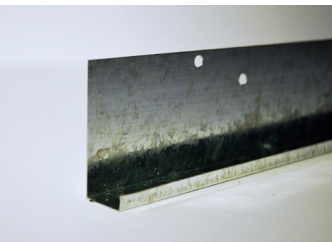

STUCCO STOP

Stucco Stop is made from .018" thick galvanized G90 steel and is used to provide a quality, finished edge for stucco.

Regular Flange: Common uses include finishing around doors and windows. Available in 1/2" and 3/4" grounds.

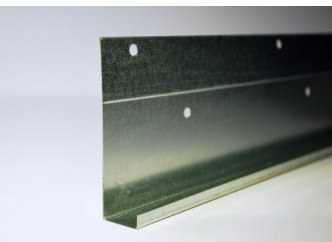

Standard length is 10' and bundles are 20 pieces (200').

Wide Flange: Extra flange width increases the ability to cover irregularities in the concrete foundation.

Available in 1/2" or 3/4" grounds.

Standard length is 10' and bundles are 20 pieces (200').

Extra Wide Flange: Also available with a 3" flange in 3/4" ground.

Length is 10' and bundles are 24 pieces. (240').

All Trowel Trades Accessories Ltd. Stucco Stops can be made with drain holes to still allow a smooth finish while also providing a measure for moisture to escape from the finish to help prevent water damage and cracking.

INSTALLATION:

Installation of Trowel Trades Accessories Ltd. Stucco Stops should be in accordance with accepted industry standards and all applicable building codes.

Trowel Trades Accessories has been making stucco and drywall accessories for over 50 years. Since we began, our goal has been to offer our customers the highest quality products at a competitive price. Our range of wire to metal products for stucco and drywall is produced with the utmost care to ensure that each item we sell meets the needs to our customers. It is this attention to detailed quality and exceptional service that has made Trowel Trades one of the most trusted names in the stucco industry.
